

GOWTHAM G

CIVIL ENGINEER / BIM PROFESSIONAL

PROFILE

Results-driven Civil Engineer and BIM Professional with 12+ years of experience in site execution, structural design, and project management across India and Kuwait. Skilled in leveraging BIM tools (Revit, AutoCAD, Navisworks, Civil3D, Tekla Structures) to develop 3D models, coordinate multidisciplinary teams, and streamline construction workflows. Focused on BIM coordination, digital construction workflows, and efficient project delivery through collaborative project execution.

WORK EXPERIENCE

Nov'25 – Present

Metalscope,

Puducherry

Designation: Assistant Manager – BIM | New Product Development

- Leading BIM activities for Steel Structures, PEB Buildings, and Modular Building projects.
- Preparing and managing detailed 3D structural BIM models using Autodesk Revit.
- Performing 4D construction simulation and project sequencing using Navisworks and Synchro 4D workflows.
- Developing construction sequencing models to improve project understanding, coordination, and stakeholder communication.
- Coordinating with planning, design, and execution teams to align BIM models with construction schedules and delivery requirements.
- Preparing federated models, clash detection reviews, and construction simulations for internal and client presentations.
- Contributing to process improvement initiatives for efficient BIM implementation across steel structure and modular building projects.
- Supporting management in improving project visualization standards and digital delivery capabilities.

Apr'25 – Jun'25

Capstone Project: Jakarta MRT Station (Senayan to Pancoran), Indonesia (Completed in Novatr)

Designation: BIM Engineer

2 Months

- Handled parametric modelling, coordination, and documentation using Revit, Civil 3D, Navisworks and Tekla.
- Collaborated with a cross-functional team to integrate structural, architectural, and MEP models into a federated BIM environment.
- Successfully developed a full coordinated 3D model (LOD 350) for a metro station and viaduct zone.
- Created custom Revit families, reinforcement detailing, and high-quality documentation sheets.
- Conducted clash detection and resolved major inter-disciplinary issues, improving project accuracy.
- Performed 4D construction simulation and 5D quantity tracking for time-cost planning.
- Applied ISO 19650 workflow for structured BIM execution and delivery.
- Developed strong proficiency in automation, visualization, and construction sequencing.

EDUCATION

2009-2013
KSR College of Engineering
Tamilnadu, India.
BE CIVIL

CERTIFICATION

2026, IFS Academy
Revit MEP (Pursuing)
2024-2025, Novatr (Previously oneistox)
BIM Professional Course for Civil Engineer

- BIM Execution Plan according to ISO 19650.

JUNE – 2018, United CADD Solution
Revit Architecture
APRIL – 2012, United Info Solution (UIS)
Staad Pro
MAY – 2011, United Info Solution (UIS)
AutoCad

TECHNICAL SKILLS

- Autocad
- Revit
- Civil3D
- Navisworks
- Synchro 4D Pro
- Tekla Structures
- Dynamo
- Bluebeam

NON TECHNICAL SKILLS

- Problem-solving
- Leadership
- Teamwork
- Adaptability
- Attention to detail
- Communication

LAUNGUAGES

- English
- Tamil
- Telugu

Jun'24 –
Nov'25

FI O Architects,
Designation: Junior Designer

Puducherry

- Assisted architects in preparing conceptual and detailed design drawings using AutoCAD and Revit.
- Created and updated Revit families, 3D visualizations, and presentation drawings for client reviews.
- Prepared presentation drawings, renderings, and design documentation for client meetings.
- Involved in preparing working drawings and GFC (Good for Construction) drawings.
- Ensured drawing accuracy and adherence to project standards, codes, and specifications.
- Collaborated with the team for design revisions, markups, and project submissions.
- Participated in site visits for design implementation and verification of as-built conditions.

Jul'22 –
May'24

JJ Construction,
Designation: Project Engineer

Bodinayakanur

- Successfully led the construction of a G+3 3-Star Hotel at Bodinayakanur, featuring a swimming pool and RR retaining wall.
- Solely coordinated all teams: Architectural, Structural, Surveying, Plumbing, HVAC, Electrical and Swimming Pool Consultants.
- Monitored site progress, quality control, and material management to ensure timely project delivery within budget.
- Reviewed and approved construction drawings, BOQs, and vendor submissions to maintain design intent and standards.

Apr'20 –
Jun'22

Chola Builders,
Designation: Project Engineer

Salem

- Self Help Group Building at Puthiragounda Palayam, Structure: Stilt +2 floors with headroom.
- Self Help Group Building at Salem (near Collector Office), Structure: Stilt +2 floors with a truss rooftop and one lift.
- Achieved technical sanction for two long-pending Self Help Group buildings (1.78 crore and 2.10 crore). A task no employee had completed in 2 years, by preparing accurate estimates and abstracts in compliance with government regulations within a year.

May'15 –
Feb'20

Gulfspic General Trading and Contracting Company,
Designation: Engineer Grade – B

Kuwait

- Worked with Gulf Spic General Trading & Contracting Company (GS), an EPC contractor serving major clients such as KNPC, KOC, PIC, and Petrofac.
- Initially involved in preparing 2D structural drawings and detailed layouts using AutoCAD and coordinating with clients for drawing approvals.
- After completing Revit training in 2018, transitioned to 3D modelling for residential building projects using Autodesk Revit.
- Developed detailed structural models including footings, columns, beams, slabs, and foundation layouts.
- Assisted in creating and managing Revit families, ensuring model accuracy and compliance with project standards.
- Collaborated with multidisciplinary teams for model coordination and design consistency.

Jun'13 –
Mar'15

Chola Builders,
Designation: Civil Supervisor

Salem

Successfully supervised the construction of

- Chola Sri Chakras –28 commercial shops, 12 residential flats, and a clubhouse with basement car parking.
- Santhasramam - Prayer Hall.
- Chola Raj Castle - 8 residential flats with ground floor car parking.
